THE

WATER-CURE JOURNAL

A

GUIDE TO HEALTH;

DEVOTED TO

Physiology, Hydropathy, and the Laws of Life.

OUR OBJECT:

TO PROMULGATE THE PHILOSOPHY AND PRACTICE OF HYDROPATHY—EMBRACING THE TRUE PRINCIPLES OF HEALTH AND LONGEVITY, TOGETHER WITH DIRECTIONS FOR THE APPLICATION OF WATER, AIR, EXERCISE, AND DIET, TO ALL THE VARIOUS DISEASES WITH WHICH MANKIND ARE AFFLICTED.

LIBRARY.

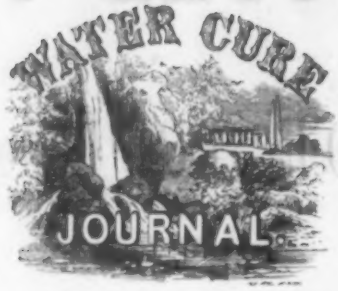
VOLS. XXXI. AND XXXII.

New York:

FOWLER AND WELLS, PUBLISHERS,

No. 308 BROADWAY.

Boston: 142 Washington Street.] 1861. [Philadelphia: 922 Chestnut Street.



We labor for the Physical Regeneration of the Race, well knowing that only through this can we successfully promote the Intellectual and Moral Elevation of our fellow-men. Health of Body and Health of Mind and Heart are so intimately connected, while we abide in the flesh, that, while the former is wanting, we despair of the latter. It is the appointed and glorious mission of the

WATER-CURE JOURNAL

to proclaim and hasten the advent of UNIVERSAL HEALTH, VIRTUE, AND HAPPINESS. We ask all who love their brothers and sisters of the Human Family, to aid in this work, by becoming Co-Workers with us in the great cause of HUMAN HEALTH.

AMERICAN PHRENOLOGICAL JOURNAL

AND

LIFE ILLUSTRATED,

The only publication in the world devoted chiefly to the science of human nature mentally and physically, appeals confidently to the lovers of progress and of mankind to continue that support which has hitherto given it so wide a field of influence and so vast a power for good. The combination of LIFE ILLUSTRATED with the JOURNAL imparts several

NEW AND ATTRACTIVE FEATURES,

in addition to those which have already rendered it so eminently popular and useful.

PHRENOLOGY

will still, very properly, form a leading feature, and will, as heretofore, engage the pens of the leading Phrenologists of America, who will explain and illustrate its philosophy, and show its application to all the practical interests and pursuits of the Human Race.

PHYSIOLOGY AND ANATOMY,

in their connection with Phrenology and with the Laws of Life, will be thoroughly, but popularly treated, amply illustrated, and made interesting and profitable to all; our motto, "*A sound mind in a healthy body*," being kept constantly in view.

NATURAL HISTORY,

both of Man and of the lower orders of the animal creation, in its relation to Phrenological and Physiological Science, will receive the attention its importance demands.

MECHANICS.

As at least one half of the wealth of the world comes through the exercise of the faculty of Constructiveness, the various mechanical arts will be encouraged, new inventions explained, and illustrated with spirited engravings.

EDUCATION

will occupy much attention, especially Home Education and Self-Culture, and just that kind of knowledge which the parent needs in the discharge of his or her duties, will be liberally imparted. THE YOUNG, also, will find the JOURNAL a friend and foster father, to encourage them in virtue, shield them from vice, and prepare them for usefulness and success in life.

MISCELLANEOUS ARTICLES,

Sketches, Reviews, Poetry, Varieties, etc., will help to make up what is acknowledged by our contemporaries to be one of the Best Popular Journals in the World.

ENGRAVINGS,

embracing portraits, animals, views, machinery, etc., more numerous and beautiful than heretofore presented, will commend the new volume to all readers of good taste.

ALL THESE ATTRACTIONS,

in connection with the large amount of reading matter which we give, and the extremely low price of our JOURNAL, ought to insure us at least,

FIFTY THOUSAND

subscribers for the forthcoming volume. Shall we not have them? A little effort by each reader will procure them.

OUR FRIENDS AND CO-WORKERS—

all persons interested in Human Progress—are invited to aid in the circulation of the PHRENOLOGICAL JOURNAL.

WATER-CURE JOURNAL

A GUIDE TO HEALTH.

THE WATER-CURE JOURNAL should be read in every family, because

It was the first journal in the world to bring before the people a knowledge of the true System of the Healing Art.

It advocates the only possible basis for the enduring prosperity and improvement of the Human Race.

It teaches the Sick how to recover Health.
It teaches those in Health how to avoid Disease.
It unfolds the true science of Human Life.
It explains the Laws and Conditions of Health.
It enables you to dispense with all Drug Medicines.
It enables you in most cases to be your own Physician.
Its doctrines promote Temperance in all things.
It tends to the correction of all Injurious Habits.
Its influence in society is in all respects Reformatory.
Its teachings benefit everybody and injure no one.

The best advice that can be given to persons in any condition of Life can be summed up in three words:

PRESERVE YOUR HEALTH.

To Get Rich.....PRESERVE YOUR HEALTH.
To Enjoy Animal Life.....PRESERVE YOUR HEALTH.
To Do Good.....PRESERVE YOUR HEALTH.
To Acquire Knowledge.....PRESERVE YOUR HEALTH.
To Attain Eminence.....PRESERVE YOUR HEALTH.

Let, then, the Preservation of Health be the great concern, the paramount business, of life.

From no publication can you gain so much valuable information relative to the Laws of Life and Health, as

THE WATER-CURE JOURNAL.

In it the true nature of disease is fully and rationally explained, and one of its principal objects is to teach

HOW TO KEEP WELL.

But as some from hereditary affections or supposed unavoidable causes do not enjoy health, one department of the JOURNAL is devoted to articles relative to the treatment of diseases, where you may learn

HOW TO RECOVER LOST HEALTH.

THE WATER-CURE JOURNAL will clearly present all subjects connected with Diet, Exercise, Bathing, Cleanliness, Ventilation, Dwellings, Clothing, Occupation, etc. Hydropathy is fully explained, and its application to all known diseases pointed out.

If you are sick, and desire to be well,
Read the Water-Cure Journal.
If you are well, and desire to avoid disease,
Read the Water-Cure Journal.
If you would know the true science of Human Life,
Read the Water-Cure Journal.
If you would learn the injurious effects of Drugs,
Read the Water-Cure Journal.
If you would understand the conditions of Health,
Read the Water-Cure Journal.
If you desire to dispense with the services of a Physician,
Read the Water-Cure Journal.

But while the WATER-CURE JOURNAL is intended to treat principally of disease, its nature, cause, effect, and remedy, its columns will be interspersed with such miscellaneous matter as will make it

Valuable and Acceptable to All.

Its enlarged form will enable us to furnish much valuable reading matter, aside from the medical department.
